

This is to certify **Lift Cars** and **Lift Car Linings** manufactured by
Åhmansi i Åhus AB, Åhus Sweden

Within the following standard concepts:

REGULAR Plus - MEDIUM Plus - PREMIUM Plus – SUPREME – CLASSIC - TRANSPORT

*Any modifications made to the Lift Car of lift car linings shall immediately be reported to Åhmansi i Åhus AB
in order to examine whether this Certification remains valid.*

Standard

Safety rules for the construction and installation of lifts EN 81-20.

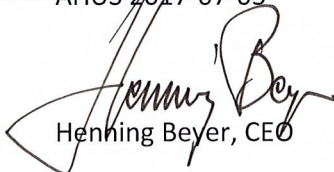

Method

The conclusion has been carried out by review of the safety rules documentation in order to establish from the contents of these documents if the lift car and lift car lining fulfil the requirements of the lifts directive regarding fire protection and mechanical strength.

Result

The **lift cars** and the **lift car linings** accounted for in the documentation are compliant with the requirements of EN 81-20.
